

## 2025 Photography Certificate Updates and Equivalencies

Starting Summer 2025, Continuing Studies photography courses will have a new "CSPH" mnemonic and some updated names for select courses. These updated courses have been developed with consideration to the ever evolving photography industry, and to the needs of our students. Our process involves consultation with artist professionals to reflect current trends, standards and best practices.

All CEPH required courses have equivalent CSPH courses available for completion. The table below lists the previous certificate (including mnemonic and title) on the left, with the updated course equivalents available on the right. These courses roll out starting in the SUMMER 2025 term and continue into the FALL 2025 (FA25) term. Save this document for your own reference when registering for courses.
