

How to cut—stretcher bars.

1

Measure to rough length.

Add an extra $\frac{1}{2}$ " – 1" (1–3 cm) to each dimension.

2

Cut to rough length.

Cut into four pieces, at rough length.

3

Cut one finished end.

Cut one end of all four pieces to 45°.

4

Make final cut.

Measure to final dimension and make cut at 45°. Use stop block for repeat dimensions.
